Again the man i head winged horizontilly, but the stamp, diln t come 'Piss, then ! whispered the conductor Still no ic sponse Just as the railroad chap we about to call up the fireman and brike man to help pitch the impecutious wor shipper out of doors, the regular deacon

PRISONERS RELEASED.

On Thursday last the grand jury reported that no bills were found against the following persons, who were confined in the county jail. By order of the court they were dismissed, because of the failure of the prosecuting witnesses in the cases to appear and substantiate the charges made against them:

John Cullom, who was caught a few weeks ago while in the act of carrying tway a pair of shoes from Kern's store. Frank Smith alias Alva Mason, who was caught one bright Sabbath morn-

A Gipsy Train. - This morning a train of nine wagons, besides several horses that were being rode and led, stopped in front of the REPUBLICAN office. On board the wagons was a company of Gipseys, consisting of men, women and children, and several men of the party were mounted. Several of the wagons were nicely covered with water-proof canvass, and set upon springs, and the people were for the most part quite neatly dressed, several of the women being quite good looking. A part of the wagons were loaded with tent equipage, of which the company seemed to have a liberal supply. Among the animals were some very fine looking horses and mules, and the general appearance of the train indicated that that they live comtheir destination. They inquired the way to Paris, and one man in answer to an inquiry in regard to their destination, replied in general terms that they were going to Ohio. We presume they have really no objective point, but dwell in tents at such localities as best suit their fancy, and are best adapted to their purposes of trading and fortune-telling.

SHOOTING MATCH.

The "Tall" Marksman Comes Out

On yesterday afternoon at about one clock, a large crowd repaired to the Fair Grounds to witness the shooting match which was given by the members of the Decatur Shooting Association:-All the preparations were made, and little after two the shooting commenced. Each of the nine marksmen took his station in his turn, at a distance of twenty-one yards from the trap, and taking steady aim, shot, hoping to win that golden medal. Dr. A. G. Murphy of Peoria, was chosen umpire, and the contestants took their stations, and shot in the order they are given below:

Charles Caldwell, out of 10 birds,...
John Meriweather, "10 "...
John Haworth, "10 "... John Haworth, Wm. Dunnivan, Preston J. Murphy, George B. Phinney, 10
A. Locke, 10
Fred. Norman, 110 Charles Brown. The umpire decided that Murphy was

the victor, as the above score shows.-The "tall" marksman then received the congratulations of his friends, and took the gold medal from Charles Caldwell, who won it only a few weeks ago. Some of the marksmen present have

since complained that Murphy had a

great advantage over them-in that he is much taller. They intend to have things made square next time by shooting from an elevated platform, so that they will be on a more equal footing with him. Murphy had other advantages. Fortune seemed to be on his side and favored him in every particular. All the

birds which were thrown from the trap for him either flew directly towards him or in a favorable direction, thus giving him a great superiority over his opponents.

The indications are that the rush to Kansas and Colorado will be greater than aver in 1874. The shortest way to reach the Far West is through St. Louis, the great Missiesippi-Valley City, of over 450, 000 inhabitants, and thence west over the St. Louis, Kansas City and Northeru Short Line, which reaches all the great land grants in the West, and runs six fast Express trains, two more than any other grants in the West, and runs six fast Express trains, two more than any other road, between the Mississippi and Missouri Rivers. This road, in the last two years, has expended over two million dollars, besides eatnings, in extraordinary improvement of roadway, in relaying its line with best quality of new steel and iron rails, on broad, new ties, and in passenger equipment, having substituted for ordinary cars new reclaining chair coaches, with expending coaches, with expending coaches, and safety be years, has expended over two million dollars, besides earnings, in extraordinary im-provement of roadway, in relaying its line with best quality of new steel and iron rails, on broad, new ties, and in passenger ery appliance for comfort and safety, being elegantly earpeted and fitted with dressing' rooms, with toilet conveniences dressing rooms, with other conveniences for ladies, gentlemen and families traveling with children, free of any extra charge. Any ticket agent selling through tickets to the West will furnish tickets by this excellent route through St. Louis, over L. A. Every Seven Years, physiologists say,

the human body is entirely changed and

renewed. Every moment of our lives, every part of our bodies is wearing out and being built up anew of fresh matter. This work is accomplished by the blood which goes through every part .-But if the blood becomes weak or vitia ted, and does not perform its work properly, the system is actually poisoned by the worn out matter clogging the vital organs instead of leaving the body. For dyspepsia, biliousness, kidney, skin and liver troubles, fevers, and all diseases arising from vitiated blood, Dr. WALK-ER'S CALIFORNIA VINEGAR BITTERS are

a sovereign remedy. [23-d&w1m Pike, the Jeweler, is agent for the sale of the best brands of American watches
